

Kunden / custom + standard

intelligent Fiber Optic Hybrids

all standards of fibers, connectors, and environments

LEWICKI 20 Jahre Pioniers Hybrid-ICs

Made in W.-Germany

Intelligent analog/digital, high speed Data Link Interfaces, Peripherals

intelligent

- ★ transceivers
- ★ light bus communicators
- ★ receivers with preampl. (incl. opto feedback) PIN-TTL interface, data processing and data compression
- ★ line monitors
- ★ data modems
- ★ transmitters with TTL-LED interface
- ★ O/E converters
- ★ P/S converters

intelligent

- ★ bar code readers
- ★ rotary encoders
- ★ machine controls
- ★ image scanners (incl. selfscanning)
- ★ pattern recognition
- ★ image amplifiers
- ★ image converters
- ★ image storage
- ★ LED/LCD displays with integrated drivers, logic and character generators

intelligent

- ★ optical switches, relays
- ★ couplers to 80 kV
- ★ directional and multi channel couplers
- ★ multiplexers
- ★ drivers
- ★ filters, bandpass
- ★ attenuators
- ★ isolation amplifiers
- ★ remission/reflection sensor heads + detectors (also IR wideband Si/PbS) etc.

Hauptsitz / Parent Company
LEWICKI microelectronic GmbH
Allee 35 Postfach 20
D-7931 OBERDISCHINGEN bei Ulm
West Germany
